## NOTES

FORTHCOMING ISSUES	ISSUE	RELEASE DATE
	February 1998	19 March 1998
	March 1998	20 April 1998
	April 1998	20 May 1998
*****		
ABOUT THIS PUBLICATION	The aim of this publication is to provide users with a range of the latest statistics available at the end of each month of issue. Consequently, the dates and periods shown are not always the same for each table, but are in each case the latest figures available at that time.	
*****		
SEASONAL ADJUSTMENT	Seasonal adjustment is a means of removing the estimated effects of normal seasonal variations from economic time series so that the effects of other influences are obvious. Seasonal variations are the systematic (though not necessarily regular) intra-year movements of economic time series. These are often the result of non-economic phenomena, such as climatic changes and regular religious festivals e.g. Christmas and Easter.	
*****		
TREND ESTIMATE	Smoothing seasonally adjusted series produces a measure of trend by removing the impact of the irregular component of the series. The trend estimates are derived by applying a 13-term Henderson weighted moving average to the respective seasonally adjusted series. Readers are reminded that trend estimates are subject to revision as subsequent months' data become available.	
*****		
SYMBOLS AND OTHER USAGES	<p>n.a. not available n.e.c. not elsewhere classified n.p. not available for publication but included in totals where applicable n.y.a. not yet available p preliminary—figure or series subject to revision r figure or series revised since previous issue * estimate has a relative standard error greater than 25% and is therefore subject to sampling variability too high for most practical uses .. not applicable — nil or rounded to zero</p>	
*****		

Stuart Jackson  
Regional Director

## SELECTED FEATURES

### NEW MOTOR VEHICLE REGISTRATIONS

The trend estimate of the number of new motor vehicle registrations for Victoria in December 1997 was 16,368. This figure continued the monthly increase since May 1997.

For Australia, the trend estimate of the number of new motor vehicle registrations in December 1997 was 64,593, continuing the monthly increase since October 1996.

Victorian new motor vehicle registrations accounted for 25.3% of the Australian total.

### CONSUMER PRICE INDEX

The Consumer Price Index for Melbourne in December 1997 was 119.8, which represented a change of 0.3% from the previous quarter.

The Consumer Price Index for the weighted average of eight capital cities in December 1997 was 120.0, also representing a change of 0.3% from the previous quarter.

## SELECTED FEATURES *continued*

## FOR MORE INFORMATION ...

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the ABS Catalogue of Publications and Products available from all ABS Offices.

### ABS Products and Services

Many standard products are available from ABS bookshops located in each State and Territory. In addition to these products, information tailored to the needs of clients can be obtained on a wide range of media by contacting your nearest ABS Office. The ABS also provides a Subscription Service for standard products and some tailored information services.

### National Dial-a-Statistic Line

0055 86 400

Steadycom P/L: premium rate 25c/20 secs.

This number gives 24-hour access, 365 days a year, for a range of important economic statistics including the CPI.

### Internet

<http://www.abs.gov.au>

A wide range of ABS information is available via the Internet, with basic statistics available for each State, Territory and Australia. We also have Key National Indicators, ABS product release details and other information of general interest.
